# machines

An extensive range of textile machinery is manufactured at our modern facility for the high speed processing of wools, synthetics and blends for a variety of applications.

## Woolen Carding Machines

Our application experience and technical expertise has enabled Tatham to remain the leading supplier of Woolen processing machinery worldwide.

Each Card is designed and built to suit the exact production requirements providing units that achieve remarkable performance levels.

## Carpet

The 'Magnum' Card is specifically designed for the production of carpet yarn slubbing suitable for modern carpet yarn ring spinning frames. Incorporating many new features including a new Triple Rub Tape Condenser.

## Cashmere

The 'Traditional' Card is specifically designed for the production of fine count yarn slubbing suitable for hosiery knitting yarns from blends using the finest fibres such as Lambswool, Cashmere, Angora and Silk. Available with unique six height tape condenser.

## Spinning Mules

China, Italy and the UK are the most important remaining locations where Mule spinning is used to produce the highest quality yarn. The modern mule spinning process preserves quality of output, yet brings in exciting innovations.

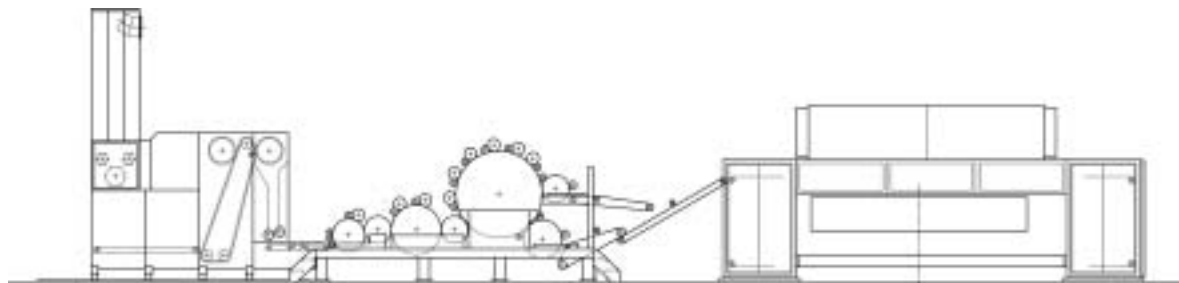

## Nonwoven Card

Tatham supplies bespoke nonwoven processing technology for all sectors of nonwoven production. Numerous combinations are available in widths from 1.0m to 3.0m.

## Nonwoven Crosslapper

The latest Total Motion Control Crosslapper is now available with High Performance Drive technology.

All Tatham cards and crosslappers are supplied with the latest integrated **TS Drive Systems** and **TS Weigh Control** devices.

As well as new equipment Tatham can offer advice on re-conditioning and upgrading machinery to maximise productivity and improve line efficiency.
